The fun began when the clerk and range convention appellant, vs. Henry T. Miller & Company, that nominated and John D. Wise, the ex-congressman from Harrison. They Virginia, nrose to state the case in behalf of the appellant.

It involves the validity of a patent for a patch intended to reinforce drawers in the He was at the erotch. Mr. Wise is a bright, witty young lawyer, bubbling over with good spirits. He seized at once upon the opportunity for a display of his talents as a fun maker, and with anecdote, sarcasm and railiery kept the court, justices, lawyers, spectators and all in a roar. Mr. Wise read from his brief the opinion of Judge Hughes, of the United States court for the eastern district of Virginia, in the ease. This opinion is remarkable for its levlty.

Judge Hughes said that it was a patent for a patch upon drawers, extending from the back of the waist band down under the crotch and up in a split form to the waist band in front. Of course it is a patch upon new drawers before worn. One of its merits is that it strengthens or, to use the enphemism of the patent office, "reinforces" the drawers at the crotch, where a catastrophe is most likely to occur. Then, as a statement of his reasons he did not believe a patent should be granted for this improvement, Judge Hughes

"It strikes me that a patent for a patch upon drawers, designed to remedy the evils of crotch, ought never to have been granted, interfering as it must necessarily do with the prerogative of the housewives of the civilized world to patch thedrawers of their husbands, fathers and sons freely in their own way. with no patentee to molest or make them

"It is impossible that the patch can be novel as to the simple matter of strengthening the seams and the material of drawers in the immediate region of the crotch; for it drawers do continually give way there it would be a reflection upon the housewives of civilized society, not to admit that for hundreds of years they have been in the habit of patching the garment 'and the forks thereof by lapping the seems and 'reinforcing' the rents in that region.

"As to the disorders of men's drawers in and near the crotch, which have troubled housewives for centuries, I do not think any person in our day and generation can employ a patch for the purpose of preventing or curing them that can have any real nov-

Mr. Wise dilated upon this opinion at length, and with inlmitable gesture and expression warned the justices of the importance of the case to the feminine portion of the community, and of the wrath that was impending over them. Concluding, he sald the case resembled the game of furo.

"There is this difference, however," said the speaker. "In faro the dealer gets ail the splits, and in this the splits are all against the

At this sally the court lost likeness to its usually serious and dignified self. The laughter become boisterous and every one gave way freely to his feelings. Chief Justice Fuller could not restrain himself and aimost fell out of his chair. Justice Harlan's huge form and blg rosy, round face became convulsed with laughter until it became almost polectic. Justice Gray made a strong effort to preserve the dignity of the court, but he, too, was compelled to succumb and join in the general merriment.

Waddell Will Contest Wise.

Washington, Dec. 21.-Judge Edmund Waddill, Jr., Republican candidate against Representative George D. Wise, of the Third congressional district of Virginia, was in the city Wednesday to serve a notice of contest on Mr. Wise. The grounds set forth in this notice for the contest are obstructions to the castling of votes by Republicans in one ward of Richmond. Among the evidence Mr. Wise holds in rebuttal, besides testimouy of witnesses denying illegal obstructions, is a letter stating that one of Judge Waddill's most uctive Eentenants had asked the writer to prepare the Democratic tickets in imitation of those put forth by the Democratic committee, excepting the substitute of Waddill's name for that of Wise. Wise will charge Judge Waddill with obstructing Republican voters, knowing he could not be elected and placing his hopes for success upon a con-

Of an Old Man at Akron by White Caps.

Findiay Saloon Demolished. AKRON, O., Dec. 21.-Joseph Carn, aged sixty, a widower, was attacked by a small party of self-constituted White Caps in a lonely part of this city Tuesday night and was shamefully treated. He was on his way home about midnight, when he was seized. and was informed that he was to be punished for alleged immoral conduct. A rope was placed about his neck, and the rope being thrown over a limb of a tree Caru wasdrawn up until pretty well choked. He was frightened almost to death. The rope was then loosened and the party held a consultation, during which Carn made a dash for liberty and escaped. A notice was last night also posted on John Horn's door notifying him that he would be hanged if he did not feed his stock better. The perpetrators of these acts being quite well known now claim it as a joke, which will prove very serious if they do not desist.

LONDON, Dec. 21. Dispatches from Sua kim state that a decisive battle has been fought, in which the rebels have been worsted and dislodged frem their position. The combined force of the Egyptians and British made an assault upon the rebels.

They stormed the redoubts and treaches and after a half hour's brilliant lighting the enemy was driven into the bush, completely routed. The rebelloss is estimated at 400 killed, with large numbers wounded. The loss to the British and Egyptians is slight. The British forces are now encamped in the position recently occupied by the rebels. The victory to the British arms is complete.

Later dispatches state that the British had four men killed and two wounded in the cavalry charge.

The Egyptian black regiment made a brilliant charge upon the enemy's trenches, in which two were killed and thirty wounded. Only two Egyptian officers were weunded.

In the French Senate.

LONDON, Dec. 21.-The debate of the budget in the French senate Wednesday was not only in itself an exciting incident, but the fact was demonstrated conclusively that Boulangism is rapidly spreading, and gaining In influence, and also that the government in spite of its heroic efforts to appear calin, ls positively alarmed thereat. Probably nothing that the government could have done would have had greater effect in estranging it from the respect and confidence of the populace than its action in the matter of the Panama canal bill and the dissolution of the chamber of deputies, and the revision of the constitution, as a direct consequence of the defeat of that measure, cannot much longe be deferred.

The speech of Senator Challemel-Lacour has given the Monarchists to understand, if Indeed they needed to be told, that their only advantage lies in the direction of active support of Gen. Boulanger, and their future action as alies of the men of destiny, covertly or openly, is beyond the bounds of doubt. It is true that M. Lacour deplored the downfall of the empire, and mildly depreented the country's prostration at the feet of Boulanger, but what are the Monarchists to do in their present straits, if they do not join hands with the only man in France strong enough to overthrow the existing government, and take their chances of utilizing his power in their own interests later. This will undoubtedly be the course they will pursue.

It is a bitter pill for them to swallow, but post, was intercepted at San Francisco by a lit is a bitter pill for them to swallow, but telegram of the secretary of state, and he is it is perfectly plain that they must first accept the leadership of Boulanger, at least tacitly, if they would ultimately lead him and mould him to their purposes. That they can do this is by no means certain, but the experiment, from their point of view, is worth making and it is confidently predicted

by astute politicians that it will be made. The exuberance of the enthusiasm which has selzed the Servian radical peasants in celebrating their recent election victories by burning the houses of their political adversaries will scarcely have the effect to clear the political atmosphere in Servia and the reaction which must take place after the cheerful jubilation of the semi-barbarians is over will doubtless afford Russia a pretext for restoring order by overruning the country with troops whose corrective atrocities will cause the present outrages to appear insignificant.

NOW'S THE TIME

Awake From Their Lethargy and Give Maysville a Boost.

An Earnest Appeal to All Who Have the Welfare of the City at Heart.

Editor of Bulletin: For old Maysville's future presperity, I beg you to give space to this letter which I write, and beg those who have the means and those who have the will to wake up from their lethargy and give the old town a "boost."

A month or so ago I had concluded to write an article and ask you to publish lt-about the same as this will he-and to that end 1 had made some memoranda. But just about that time a scheme was opened up to me which on its face showed that 20 per cent. could be made annually on the investment, and the property bought would Increase and double in value in five years. From a seifish standpoint I wanted some of tint, and went Into It with the understanding that, If a committee appointed from the syndicate and sent to investigate found therein what was represented, the investment would be made. I had the honor of being made one of the committee of investigation, and just returned from Texas-Ellis County-our objective point. We were gone some twelve days, and I made it a trip of purely husiness, and from the time I iest Cincinnati 1 was on the sharp lookout, comparing the lands with those of old Mason and the towns with old Maysville, tor I must say that I felt somewhat conscience smitten, and was continually titinking why could not this sum that our syndicate proposed to invest in the far West be invested at home in some kind of a manufacturing enterprise, and bring perhaps as great returns as in the Lone Star State, and thereby not only benefit ourselves but beip others, particularly the laboring man at home who wants steady employment. Thus, thought I, we might be the starters of a manufacturing boom in our midst that would give all the young men of the town employment so that they would not be compelled to julgrate West, to grow up with the country.

We pureinsed tickers in Uncinnati for Dallas, Texus, going by the O. and M. road 10 81. Louis, and from there by the Missourl Pacific road to Sedniin, Mo., where we mok the Missouri, Kausas and Texus road to Dennison, Texas. From there we took the itouston and Texas Central road to Dalins. We passed though Missouri by way of Jefferson City, Sedalia and Nevmia, and through the southwest corner of Kansas, going through Fort Scott and Parsons, and then on through indian Territo y from north to south and down into Texas as tar as Waxahatebie, In Ellis County, through Denulson, Sherman, Mc-Kiniey and Dailas.

Without n y projudice I must say that I dld not : ee b :tter lands than there is in old Masan. Some of the towns were more populans and more smoke was to be seen co alug from the manufacturing establishments, and the people seemed to be all busy, but still I could not discover why it was unless it was the people themselves, tor, as I stated, they have no better land, and from what I saw and could fearn they have no better c lmate. In short, they have no advantages over us. Theretore, I have concluded that it is all with the people, and it resis only with usas to whether or not we shall make old Maysville the center of the eartic.

As for me, I am perfectly satisfied to stake my ail here. With the co-operation that should be had, no old city in America will improve more rapidly than old Maysville. Let us all put our heads and means together. so that in a few years persons who lelt and return will tall to recognize the city as the place of their birth and fermer abode. We have not an over abundance of terrifory to bulld on, located as we are here on the Ohio river, with the hills rearlug up high behind us, but there is considerable of vacant space and n number of old name rookeries which are eye-sores to the bu-lness thorough fares of our city. And I will heresay that they are in the main owned by rich men, who are careful and cantious, who receive a good revenue in commission and file their affidavits makinvited to call and sec three goods. Lalest novelties always on land. Fresh stock of rentals from hir-rooms and doggerles and are content; and they will neither sell nor build until likey are cer ain they will reap the whole

to her population, Her people have ever been marked by a degree of conservatism that is wonderful to speak of. They have never belleved in taking chances, (with a few exceptions), but bays been satisfied with clipplug coupons off U. S. bonds, leaning money at 6 per cent. on Mason County lands, or colleeting odest rents. By this needs some men linve, after a ilfe time of stringgling and fivling economically, accumulated fortunes and impded them down to their children. As nn example, there will soon be offered for sa'e \$50 DtO of Mason County's boads, bearing 6 likely to five years, and those bonds when sold are more than likely to bring 5 per cent. premium. Now why is this? and now to the point I have been trying to reach. I have Texas and the country and towns that I be convinced. Will sack flour in any pa-sed through. This was not the only trip I have taken away from home. I lave been North, East and South, and never have I been anywhere where the country showed hi ger or exchanged. Your natronage solicited. eorn shocks and where the wheat shocks stood thicker on the ground. And then you all know there is no country that can produce a greater quantity or better quality of tobacco thau ours. Hut that is not all. All kinds of grasses, fruits and vegetables are grown, and then we have close to us hickory, oak, wainut, popiar and other varieties of timber, besides coal, iron ore and building stone in Rallroad, just completed, and which will run trains from the Atlantic to the Pacific Ocean.

allel with it, and then there is the Kentucky Central Raliroad, which will soon be tapped by roads running to the great timber and mineral lands of Eastern and Southeaslern Kentucky, and when that Is done, for a worthern ontiet the Maysville and Coinmbus road will be built, with the river bridged here at this point. But we need not wait for that. We have railroad facilities, natural advantages, agricultural products, timber, stone, shawi. coal, iron and other minerals that give us an advantage over any city or town I have ever seen. So now, right now, just as the M. and B. S Rallroad is completed and opened for traffic, let's make a move, for when regular trains hegin to run men who have means and For Those Who Have the Means to want to make investments will be found go-Ing along this road, looking out for points to make investments in real estate and manutacturing establishments. Let us show these strangers that we are awake and are taking advantage of the opportunities opened, and that we are ready, also, to lend encouragement and help to other enterprises that may be induced to come in our mldst.

Now what kind of factories are there that can be established and made profitable here? I cannot close without saying something about free roads into our elty. I was In Waxahatchle ou'n Saturd y while gone, and the country people were all in in full force for miles around, and I found it the same in Nevada, Mo. AFTER AN EXISTENCE OF NEARLY A YEAR AND A HALF.

The Defeated Candidate, General Crespo, Mans a Schooner With His Fellowers and Ranges Along the Coast Until About a Month Ago When He Was Captured After a Short Skirmish.

NEW YORK, Dec. 21.—The steamship Philadelphia brings the news of the restoration of peace in Venezuela. The trouble which has existed in that courtry for the past sixteen months grew out of the election of Dr. Rajas Paul to the presidency of Venezuela orer Gen. Crespo, who had served one term in the presidential office.

Crespo, however, succeeded in cluding all pursuers until about a month ago the man-of-war La Libertad was sent in quest of his schooner.

The man-of-war with a select crew and Gen. Paez on board, came up with the Anna Jacinta on December 2, off Curacoa. She was ordered to surrender, but it seems did not obey the command.

In the skirmish that followed one of the erew of the Jacinta was killed, but in a little while the vessel was made a prize and her commander and erew captured. Among those taken prisoners was ex-President Crespo.

They were all transferred to the La Lebirtad and brought to Laguayra the following day. From there Gen. Crespo and his followers were taken to Caraeas, and are now in prison and in due time will be put on trial and punished for taking arms against the

"The American Commonwealth." NEW YORK, Dec. 21.-The Herald publishes several columns of extracts from Professor Bryce's new book, "The American Commonwealth," which is highly spoken of by English critics, and has even been likened in importance to De Tocqueville's grent work on Democracy in America. The extracts show careful observation, and a surprising correctness as to facts. The view taken of the American people is decidedly complimentary, and the author thinks the problems confronting us are not greater than our intelligence can solve.
